Please answer the following questions. Attach a sheet, if necessary.

1. In the 2001-2002 academic year, did your technology/program put into effect any improvements in direct response to previous assessment data? If so, please describe those improvements.

   Yes. There needs to be more emphasis on analyzing "threats" in the SWOT analysis and turning them into opportunities.

   We will be adding two more criteria during 2002-2003 to further strengthen the Individual Plan for Assessment of Student Academic Achievement in the E-Commerce Technology.

2. Please list time, money, and materials devoted to the assessment of student academic achievement by your technology/program in 2001-2002.

   A total of 25 hours for the development, evaluation and analysis of the data was spent by the program coordinator.

3. Do you have needs for assistance in research or data gathering? Please describe those needs specifically.

   Assistance is not needed at this time.

4. Please give recommendations for altering the College’s assessment process so that it better fits your needs.

   I have no recommendations at this time. The assistance that I have received has been excellent.
