Parks & Recreation Overall Assessment Results 2007-2008

Criterion Statements

1. The aggregate score for each Program Outcome evaluated by graduates of the Parks and Recreation program on a survey will be 3.5 or higher (on a 5-point scale), indicating the graduates’ satisfaction with their Hocking College preparation for entry-level work.

2. The aggregate score for each Success Skill evaluated by graduates of the Parks and Recreation program on a survey will be 3.5 or higher (on a 5-point scale), indicating the graduates’ satisfaction with their Hocking College preparation in life/job skills.

3. The aggregate score for each Program Outcome evaluated by employers of Parks and Recreation graduates on a survey will be 3.5 or higher (on a 5-point scale), indicating better-than-satisfactory to superior performance.

4. The aggregate score for each Success Skill evaluated by employers of Parks and Recreation graduates on a survey will be 3.5 or higher (on a 5-point scale), indicating better-than-satisfactory to superior performance.

5. Forty percent of Parks and Recreation graduates responding to a survey will report that they are employed in a related field or seeking additional education.

6. The aggregate score for each Program Outcome evaluated by on-site practicum supervisors for Parks & Recreation students will be 3.5 or higher (on a 5-point scale), indicating better-than-acceptable to extremely good performance.

7. The aggregate score for each Success Skill evaluated by on-site practicum supervisors for Parks & Recreation students will be 3.5 or higher (on a 5-point scale), indicating better-than-acceptable to extremely good performance.
8. The aggregate score for each Program Outcome evaluated on the 6th Quarter Survey by Parks & Recreation students enrolled in the capstone courses Conservation Management (NRM 206), Wildlife Management II (WLM 239), or Fish Management II (FMAQ 238) will be 3.5 or higher (on a 5-point scale), indicating the students’ satisfaction with their Hocking College preparation for entry-level work.

9. The aggregate score for each Success Skill evaluated on the 6th Quarter Survey by Parks & Recreation students enrolled in the capstone courses Conservation Management (NRM 206), Wildlife Management II (WLM 239), or Fish Management II (FMAQ 238) will be 3.5 or higher (on a 5-point scale), indicating the students’ satisfaction with their Hocking College preparation in life/job skills.

10. Ninety percent (90%) of the students (including Parks & Recreation students) enrolled in the course Watercraft Operation & Maintenance (NRM 113) will score 80% or higher on the Ohio Boater Education Course Certification exam. The state requires a minimum score of 70% to pass the exam. Certification also meets national (National Association of State Boaters Law Administrators, NASBLA) and international standards.
