

Associate of Technical Study

PROGRAM DESCRIPTION

Associate of Technical Study Program

The Associate of Technical Study (ATS) is awarded for successful completion of a minimum of 60 credit hours of an individually planned technical education program designed to respond to a student's need for specialized technical education not currently available in the formal degree programs available at Hocking College, an Ohio technical college.

The typical technical student is seeking a unique, flexible degree that combines two or more technical degree programs from Hocking College, needs a degree as soon as possible for their current job, or has already completed many technical credits but lacks focus in one specific technology.

The Associate of Technical Study program must have an area of concentration that is equivalent to 30 credit hours in technical studies and clearly identifiable with a career objective. The area of concentration can be formed either by:

- A coherent combination of technical study courses selectively drawn from two or more technical programs currently offered by Hocking College to serve a career objective which would not be adequately addressed by one of those existing programs; or
- Courses completed or training received at other institutions of higher education, vocational centers, or other educational enterprises judged by Hocking College to be of college level to a maximum of 30 credit hours, prior to the declaration of candidacy for the degree.

ALL-INCLUSIVE PRICING

Hocking College offers all-inclusive pricing and works with students to assure they have complete college funding, including financial aid, before they start classes. All-inclusive pricing includes the following:

PER SEMESTER

\$300.....Learning Fee
